

	QUALITY POLICY	Pag. 1 di 1
		MOD.DIR.001
		REV. 00 del 03/02/2022

Platum prioritizes the high quality of its products and services, customer satisfaction, and continuous improvement of all processes to ensure the company's competitiveness in the market.

Constant research into the most advanced engineering methods and technological innovation in research and development have allowed Platum to develop consolidated expertise in the field of micro e-mobility, becoming a benchmark in the creation of safe, innovative, and eco-sustainable transportation models.

This "Corporate Policy" expresses the organization's primary objectives:

- Increase in the number of customers and revenue, international expansion of the company, and entry into new market areas;
- Selection, evaluation, and qualification of suppliers with the aim of obtaining quality-compliant and reliable supplies over time;
- Pursue the goal of "zero defects"
- Establish and consolidate a close collaborative relationship with current and potential customers, strengthening the customer-supplier relationship;
- Invest in increasing know-how, understood as innovation and the implementation of cutting-edge technologies;
- Foster the professional growth of employees, ensuring they receive the necessary training and adequate qualifications, promote respect for and protection of human rights, and prevent and combat all forms of discrimination;
- Develop structures that ensure environmental compliance and guarantee workplace health and safety, in compliance with applicable regulations/legislative decrees.

Management assigns the Quality Manager the task of updating the QMS, and department heads the authority to apply the tools necessary to undertake improvement actions and achieve objectives.

This policy is available to interested parties through the company website.
